## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-20 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for building a resume table of available agents and calculate the normalized proficiency, does not reasonably provide enablement for selecting an agent to service a task based on the resume table and calculate the normalized proficiency. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to understand the invention commensurate in scope with these claims. Page 10 line 19 " $8 + 5 = 14$ " should read --  $8 + 5 = 13$  -- and any other places that use the proficiencies for A and B is  $8 + 5$  should also need to be corrected. Page 10 line 20 "A7" should read -- A8 --. Page 5 Fig. 1, agents A5 and A8 have the same skills {A, B, D}, while agent A8 is qualified in Fig. 3, but agent A5 is not selected; and there are inconsistency in Fig. 1 - agent resume table - for example, agent A5 is listed under the following states {1000, 1100, 1101, 1110, 1111} while agent A8 is listed under the following states {1101, 1111}.

### ***Double Patenting***

3. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or

Art Unit: 2642

discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

4. Claims 1-20 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-20 of prior U.S. Patent No. 6,584,192. This is a double patenting rejection.

The claims are identical.
